

**Installation Guide** 

# Address Autocomplete for BigCommerce

#### Thank you for installing Woosmap Address Autocomplete for BigCommerce!

You'll just need to follow a few easy steps to get address autocomplete during checkout. However, would you have any questions, please get in touch with our support team <u>here</u>.

### Onboard Woosmap

In your Web browser, open a new tab and head to <u>https://www.woosmap.com/en/sign\_up</u>.

Fill in the form and submit it by clicking on the **Create an Account** button.

## **O** Create a Woosmap API key

You're now in the Woosmap console which is the place to manage your projects and API keys and also review your API consumptions.

As requested, the first step is to create a new project by clicking on the **Create a new project** button.

Activate **Localities API** and **Address API** thanks to the dedicated toggles. Those two APIs are combined in the Woosmap Address Autocomplete App for BigCommerce. Go then to the next step by clicking on the **Next** button.

Autofill capabilities for UK addresses, can be enabled on projects for Pro Plan and Enterprise Plan only. You can enable the *Localities UK Addresses* option via the

| button on the Products activation p   | Dage.   |
|---|---|
| Products options This product has featured options  | Products options This product has featured options  |
| Image: Constraint of the Constraint | Image: Second |
| Pro and Enterprise Plans capabilities   | Free Plan capabilities  |

Enter the name of your project (e.g. "BigCommerce Checkout") and the domain of your BigCommerce store (e.g. "acmestore.mybigcommerce.com"). Then, click successively on the +**Add** and **Finish** buttons.

| 2. Choose your Project's name and domains |   |      |
|---|---|------|
|   | Give a name to your Preject<br>BigCommerce Checkout<br>Choose one or several domain names for this Project<br>An authorized domain is a URL where the APIs can be called. Without<br>it, you won't be able to call the Products you've selected and will<br>systematically receive an error!<br>acmestore.mybigcommerce.com |      |
| Cancel                                    | • •   | Back |

Congrats! You've created your first project in the Console. Just click the **See my Project** button.

| Project created  |       |

| 2      |                          |   |   |

That's all for this part. Easy, eh!

### Set your Woosmap API key and tune your checkout page

Go back to the BigCommerce control panel.

In the sidebar, enter the **Apps** menu and, then, the **Woosmap Address Autocomplete** submenu.
